Packing a Necessity Box

Create a necessity box containing the essentials. These items would include all items you would use on the last morning in your old house and the first night/day in your new one. This box should be loaded on the truck last; label the boxes appropriately so that they will also be the first boxes off. Keep in mind that you should always carry valuables, jewelry, and most important paperwork with you.

- ◇ Basic Tools
- ◇ Bed Linens for Each Bed
- ◇ Change of Clothes for Every Member of your Family
